## **RESEARCH PROJECTS**

2010 - 2011: Steatite Residue Analysis.

This is a multi-disciplinary student-faculty project using gas chromatography to analyze residue on a steatite bowl dating to circa 4,000 bp. Advisors: Dr. Heather Wholey (Anthropology) and Dr. Tim Starn, (Chemistry), West Chester University.

2009 – 2011: Archaic Settlement in Southeastern Pennsylvania.

This project uses archival collections and GIS data and to examine settlement patterns of the Archaic Period between the Susquehanna and Delaware Basins in Southeast Pennsylvania with special attention paid to distributions of two major traditions, the Piedmont and the Laurentian. Advisor, Dr. Heather Wholey (Anthropology) West Chester University.
