RESEARCH:

General research interests: Old World prehistory, especially SE Europe; Hunter-gatherers in anthropology and archaeology; theory of archaeology and archaeological methods.

Areas of Specialization: Prehistoric technologies, especially chipped stone; Palaeolithic and Mesolithic hunter-gatherers.

Areas of Competence: Palaeoenvironment; Population movements and contacts; Past symbolic behavior in the archaeological context; Cultural transformations in the past.

Research projects:

- Since 2018 revisiting the evidence from the Palaeolithic site of Mališina Stijena (Montenegro) in the light of new SE European research (especially radiocarbon and paleoenvironmental data). Step 1 planned for Summer 2018: digitizing field documentation from excavations 1981-1987.
- Since 2016 Research on inequality among hunter-gatherers in the Early Holocene (Mesolithic) Europe based on the archaeological evidence from formal disposal areas in the Danube Iron Gates, and the Baltic-Pontic region (focus on funerary practices, paleodiet, mobility, aDNA). Preparation of grant proposal for 1-year project to NEH, NSF and Wenner-Gren in Fall 2018 to submit in Spring and Summer 2019.
- 2011-2015 “Settlement and Riparian/Inland Interaction in the Iron Gates Mesolithic” in collaboration with D. Mihailović, the University of Belgrade, and B. Mihailović National Museum Belgrade. Field research funded by NSF, GRF and Museum in Negotin.
- 2005 “Contexts of change and transformation of prehistoric communities in the Carpathian-Danubian region in the Final Pleistocene and Early Holocene – phase 1: Survey” in collaboration with D. Mihailović, the University of Belgrade, S. Perić Institute of Archaeology Belgrade and B. Mihailović National Museum Belgrade. Field research funded by GRF (KU), National Museum, Belgrade and Archaeological Institute Belgrade.
- 2001-2005 Revision of stratigraphy and settlement of the site of Lepenski Vir (participation in preparation of the monograph on Lepenski Vir edited by the Committee for the Publication of

- Lepenski Vir Monograph – Institute of Archaeology Belgrade, National Museum Belgrade, Department of Archaeology, University of Belgrade. Archive research.
- 1999- 2001 Art of the Lepenski Vir Culture: Iconography, Ideology and Belief System of the Mesolithic Community in VIII-VI mill. BC. Funded by British Academy, Leverhulme Foundation and Getty Foundation.
 - 1998 -2008: The transition from foraging to farming in the Iron Gates (14C dating and palaeodietary analyses, with C. Bonsall, University of Edinburgh, UK).
 - 1984-1989 Epipalaeolithic, Mesolithic and Later Prehistoric Chipped Stone Industries in the Territory of Yugoslavia. University of Belgrade, Ministry of Science Serbia. Academy of Sciences and Arts, Serbia. Archaeological collections research in Belgrade (National Museum, Institute of Archaeology), Zagreb (Museum of Paleontology), Ljubljana (Institute of Archaeology), Rijeka (Museum).
