

# CURRICULUM VITA

David W. Frayer

## Biographical sketch

David Frayer is a paleoanthropologist at the University of Kansas, where he is now professor emeritus. He has worked extensively in Europe on Neandertal, Upper Paleolithic, Mesolithic, Neolithic and Medieval human dental/skeletal material, along with remains from fossil sites in Africa, the Levant, Central Asia and SE Asia. His publications have appeared in major anthropological and science journals with topics ranging from prehistoric dwarfs to the earliest evidence for drilled teeth to issues involving the relationship between Neandertal and modern populations. His books involve dental changes in Upper Paleolithic and Mesolithic Europe, evidence for violence in prehistory (edited with Debra Martin), an extensive, illustrated bibliography of the Krapina Neandertal site and an edited volume (with Janet Monge, Alan Mann and Jakov Radovčić) on new research at Krapina. His most recent collaborative work concerns ritual behavior in the Krapina Neandertals, determining handedness from scratches on Neandertal teeth, Krapina Neandertal inner ear structure and evidence for Neandertal jewelry at Krapina. For 2009-2011 he was a Sigma Xi Distinguished lecturer. Most of the publications are available on ResearchGate. His research on handedness was recently the focus of an article in *Discover* (June 2018).

## Education

B.A. Anthropology. Miami University, Oxford, OH (1969).

M.A. Archeology. Case Western Reserve University, Cleveland, OH (1971).

Ph. D. Biological Anthropology. University of Michigan, Ann Arbor, MI (1976).

## Academic Positions

- 1969-70 Part-time Lecturer, Department of Anthropology, Cleveland State University.  
1972-73 Teaching Assistant, Department of Anthropology, University of Michigan.  
1972-73 Adjunct Lecturer, Extension Service, University of Michigan.  
1973-74 Lecturer, University of Maryland Overseas Division (Germany and Italy).  
1974-75 Adjunct Lecturer, Extension Service, University of Michigan.  
1975-80 Assistant Professor, Department of Anthropology, University of Kansas.  
1981-89 Associate Professor, Department of Anthropology, University of Kansas.  
1989-94 Chairman, Department of Anthropology, University of Kansas.  
1990-2008 Professor, Department of Anthropology, University of Kansas.  
2006 (June) Resident scholar, Istituto Italiano di Antropologia dell'Uomo, Università La Sapienza, Roma.  
2009-2013 Phased retirement as Professor, Department of Anthropology, University of Kansas.  
2014 Professor emeritus.

## Research Experience

- 1967 Summer, Archeological fieldwork, Late Mississippian mound, under direction of B.C. Keel and J. Coe, University of North Carolina, Chapel Hill.  
1968a Spring, Archeological fieldwork, Fort Prince George, under direction of J. Combs, University of South Carolina, Columbia.  
1968b Summer, Archeological fieldwork, Buffalo Jump site, Snake River Canyon, under direction of F. Leonhardy, Washington State University, Pullman.  
1969a Spring, Archeological fieldwork, Original settlement of Charleston, under direction of S. South, University of S. Carolina, Columbia.  
1969b Summer, Archeological fieldwork, Franklin Glass Works, under direction of D.S. Brose, Case Western Reserve University, Cleveland.  
1969-1970 Research Assistant, Analysis of artifacts from Franklin Glass Works. Case Western Reserve University, Cleveland.  
1970 Summer, Archeological fieldwork, Middle Woodland site, under direction of D.S. Brose, Case Western Reserve University, Cleveland.  
1971a Winter, Research Fellow in Human Paleopathology, Smithsonian Institution, Washington D. C.  
1971b Summer, Archeological fieldwork, Supervisor of excavations at Hale Homestead, (with D. S. Brose), Western Reserve Historical Society, Cleveland.  
1973/4 Dissertation research, data collection on Upper Paleolithic, Mesolithic and Neolithic human skeletal material from Western and Central Europe.  
1979 Winter, Paleontological fieldwork, Northern Thailand with G. G. Pope, University of California, Berkeley.  
1981 Winter, Paleontological museum research in Hungary and Czechoslovakia.  
1983 Winter, Paleontological museum research in Hungary.  
1985/6 Paleontological museum research in Western and Central Europe.  
1988 Summer, Paleontological museum research in Central Europe.  
1992 Summer, Paleontological museum research in Central Europe and Israel.  
1995a Winter/Spring, Paleontological museum research in Central Europe.

- 1995b Summer, Paleontological museum research in Croatia.
- 1997 Summer, Paleontological museum research in Croatia.
- 2000 Winter, University of Coimbra, Portugal.
- 2003-4 Sabbatical Research in Italy, Croatia and Eritrea.
- 2005-6 Paleontological museum research in Italy and Croatia.
- 2009-17 Paleontological museum research in Italy and Croatia.

### Grants Received

- 1971a Smithsonian Predoctoral Stipend: Paleopathology program.
- 1971b National Endowment for the Humanities: Excavation of the Hale Homestead, (with D. S. Brose, Case Western Reserve University.)
- 1973a NSF Dissertation Improvement Award.
- 1973b Horace H. Rackham Graduate School Grant: Dissertation fieldwork, University of Michigan, Ann Arbor.
- 1976 University of Kansas General Research Fund: Monograph preparation.
- 1977 University of Kansas General Research Fund: Research on Upper Paleolithic and Mesolithic.
- 1979 University of Kansas General Research Fund: Research on paleontological discoveries from N. Thailand.
- 1981 National Academy of Sciences: Human paleontological museum work in Hungary and Czechoslovakia.
- 1983 National Academy of Sciences: Human paleontological museum work in Hungary.
- 1984 University of Kansas General Research Fund: Research concerning Hungarian Middle Ages.
- 1985/6 National Science Foundation: Research on the European Upper Paleolithic and Mesolithic.
- 1987 University of Kansas General Research Fund: Research concerning Upper Paleolithic and Mesolithic.
- 1988 University of Kansas General Research Fund: Research concerning Upper Paleolithic and Mesolithic.
- 1990 University of Kansas General Research Fund: Graduate research assistant.
- 1992a IREX. Research support for studying Linearbandkeramik skeletal material from Czechoslovakia.
- 1992b University of Kansas General Research Fund: Research support for evolution of Czechoslovakian Early Neolithic populations.
- 2003 University of Kansas General Research Fund: Research support for Krapina bibliography.
